IT'S NOT ALL FUN AND GAMES

You never know when the unexpected will impact an event, a television program, a commercial shoot, or even the half-time show at a basketball game. The star of the show gets stuck on a plane, a venue is flooded, the 12 year old sinks the basket, or the television goes black in the last 10 seconds of the playoff game. Sutton Special Risk Contingency insurance offers superior coverage with a range of solutions for even the most challenging cases.

PLANNING FOR THE UNEXPECTED

EVENT CANCELLATION - Coverage protects from loss of expenses or gross revenue due to cancellation, abandonment, postponement, interruption, curtailment, or relocation of any type of outdoor or indoor event, including single day or multiday sporting events, tournaments, music events, festivals, world tours, productions, conferences, exhibitions, and tradeshow.

WEATHER DAY COMMERCIAL SHOOT - We cover additional costs incurred due to a weather-induced filming delay. Weather conditions include sunshine, reasonable photographic conditions, wind, or absence of precipitation.

NON-APPEARANCE OR INTERRUPTION - Coverage is available if death, accident, illness, or the unavoidable travel delay of a key person results in the cancellation, abandonment, postponement, interruption, curtailment, or relocation of an event.

PRIZE INDEMNITY - Companies often choose to protect themselves from their contractual obligation to pay a prize in the event of a successful skill based or mathematical and probability game, such as a hole-in-one shot or a lottery.

DEATH, DISABILITY, & DISGRACE - Many advertising campaigns or productions are built around celebrities and professional athletes. Clients may incur significant costs related to these productions if the star were to pass away, become seriously injured, or disgrace themselves in the public eye.

TRANSMISSION FAILURE - Transmission Failure coverage protects against losses following the failure to provide the entire sound and/or picture of a televised event or commercial due to mechanical or electrical breakdown, the failure or malfunction of the power supply and/or loss of satellite transmission.
